

# Team Dental's COVID-19 Safety Plan

We are excited to get back to caring for you & your family. As you come in for your dental appointments please know that, in addition to heightened sterilization procedures, we are taking the following precautions to keep patients & staff safe.

## Online Check-in

Find our check-in forms on our website & complete them before you arrive.

## Disinfect!

Please use the hand sanitizer, soap & decontaminant rinse we provide during your office visit.

## Skip the Waiting Room

Call us from your vehicle when you arrive & we will bring you straight to the treatment room when it is ready.

## Minimize Visitors

Only patients may enter the office for their appointment. Companions are limited to guardians of minors.

## Pre-Screening

We will take your temperature & ask some questions before your appointment begins.

## Reschedule If Sick

If you or anyone in your household is or has been sick, please reschedule your appointment.

## Wear a Mask

Please bring your own mask to wear while you are in the office. We will tell you when to safely remove it for treatment.

## Advanced Sterilization Equipment

We use medical-grade air purifiers, UV sterilizers, disinfectant foggers & anti-aerosol technology to clear our office of contaminants.

Your Safety Is Our Top Priority!  
Further Heightened Sterilization Standards!
